ABOUT ME

I'm a software developer graduate of computer science degree. I love to develop software for a little purposes in my daily life as a hobby, read manga and play videogames.

ABILITIES

Knowledge of multiple programming languages like **java**, **c**, **c++**, **python**, **php**. Management of databases systems like **mysql**, **postgresql** and its implementations on web systems with **php**, **java (spring boot)** and **python (flask)**. API Rest services consuming with **javascript**. Also I know how to work in a team, be responsible and take different kinds of roles as the situation requires

.

EXPERIENCE

Universidad de Guadalajara CUTonalá - Unidad de desarrollo tecnológico - web developer

February 2019 - September 2019

- Web systems design, development and implementation on **php**, **mysql**, **javascript** and **html**.
- API services development in **Java** with **spring boot**
- API consuming with **vanilla javascript** and **jQuery**
- Database design in **mysql**.
- **Linux** servers configuration (application servers and data storage)

IBM - Test analyzer

November 2020 - January 2021

- Failure gestion in servers' tests process
- Use of the **Linux/Unix CLI** to search issues in servers

EDUCATION

Universidad De Guadalajara CUTonalá, Tonalá, Jal. - Ingeniería en ciencias computacionales

January 2017 - May 2020

study area:

Software development on multiple languages for different purposes, database design and its implementations, concurrent and parallel programming, and **linux** systems administration.

LANGUAGES

Spanish - writing/reading 100% speaking 100%

English - writing/reading 60% speaking 40%

HOBBIES

- Play classic video games
- Cook
- Read manga
- Ride on bike
